

# BE AGILE IN YOUR INNOVATION WITH BUSINESS-DRIVEN WORKFLOWS

## Organizations with business-driven workflows are:

**39%**

more likely to have the ability to capture and integrate ideas from employees, customers, and suppliers

**6.4x**

as likely to dynamically update business processes as new best practices emerge

**84%**

more likely to have form templates for quick process design

**3.1x**

as likely to have the ability to develop solutions without altering code

**2.4x**

as likely to enable IT and the line of business to create solutions

Want to learn more? Watch the webinar, [Business-Driven Workflows for Innovation-Driven Organizations](#), presented by Aberdeen Group and Nintex

**The bottom line:** By enabling business-driven workflows, organizations can innovate and drive substantial changes to the business that result in improved performance.
