Dropbox Business   +   MobileIron

Offer secure access to corporate documents on mobile devices

Security controls
Control what mobile applications can open Dropbox documents

Automatic deployment
Take advantage of flexible deployment options that easily integrate with your existing IT infrastructure. Install Dropbox automatically to employees' mobile devices.

Access control
Provide employees with secure access to company data on-the-go to speed up collaboration. Only trusted mobile devices access corporate Dropbox data.

Data loss protection
Automatically remove Dropbox from mobile devices that are lost or compromised

Empower employees
Help your employees be more productive by supporting their use of Dropbox, a tool they already love. Embrace an application that puts the user experience first while adding security, automation, and visibility for IT.

Dropbox and MobileIron enable businesses to transform into mobile-first organizations by using AppConfig capabilities to arm employees with the productivity tools of Dropbox while keeping company data secure. Companies can now embrace mobile collaboration with confidence with Dropbox and MobileIron EMM.

For more information, reach out to your Dropbox representative at ecosystem-partnerships@dropbox.com or contact your MobileIron sales representative.
