

Extend Nintex Workflow across a multitude of content sources and platforms

ENTERPRISE PROCESS AGILITY MADE EASY

Nintex Workflow Cloud™ gives you the ability to automate workflow processes independent of one single platform. Its enhanced drag-and-drop design experience – combined with a multitude of pre-built enterprise SaaS connectors and its unique Workflow as a Service™ capability – make it fast and easy to address workflow scenarios regardless of the underlying content source. It's a powerful, yet easy to use platform that simplifies operations — from day-to-day tasks to the most sophisticated business-critical processes. Nintex Workflow Cloud helps you innovate faster while giving your IT team the manageability, scalability and security it needs.

Nintex Workflow Cloud™

FAST AND EASY

Nintex Workflow Cloud is the fastest, easiest workflow platform for designing, deploying and monitoring enterprise-grade workflows.

- New and improved drag-and-drop design canvas lets you build workflows the way you think
- Deploy workflow applications with just a single click
- Enjoy a consistent design experience across multiple web browsers
- Track workflow activity in a single view

POWERFUL AND CONNECTED

Develop powerful workflows, regardless of where the underlying information is captured, processed or stored.

- Use Nintex Forms, Nintex Mobile or third party forms to capture workflow data
- Integrate faster with pre-built SaaS connectors
- Expose workflows via REST APIs and make it easy to call them from external sources
- Integrate via common web services and Open Data Protocol stores

CLOUD OPTIMIZED

With Nintex Workflow Cloud, workflow capabilities are provided as a managed service.

- Pay only for the workflows you use
- Create a range of workflows that scale to multiple process scenarios
- There's no hardware to install or maintain locally. Build your workflow applications based on your needs
- Run your workflows on a secure cloud infrastructure that adheres to standard security and privacy policies

SIMPLE TO SOPHISTICATED

Nintex Workflow Cloud transforms businesses into smarter workplaces – whether your processes involve a single action or highly intricate steps. Processes you can automate include:

- Employee onboarding
- Expense approvals
- Procurement monitoring
- Emergency dispatch calls
- Maintenance service requests
- Sales operations
- FDA drug trial approvals
