Employees' favorite tool for work

Employees today rely on Dropbox to be more productive across any device or platform. Powerful collaboration features help them work better with colleagues and reduce friction when working with valued partners, vendors, or contractors.

Productivity

Device and platform agnostic

Works across over 40 operating systems

Productivity tools

Scan and search across receipts, whiteboards, and sketches with document scanning

Online/offline access

Helps employees stay productive at home or on the go

Smart Sync

See all files and folders in context on the desktop, even if they're not stored locally

Plenty of storage space

The Standard plan provides 2 TB of space, while the Advanced and Enterprise plans offer as much space as you need, with separate accounts for work and personal data

Collaboration

Dropbox Paper

More than a doc, Dropbox Paper is a flexible workspace that brings people and ideas together

Team folder

Keep collaboration secure with granular permissions and a central hub for content management

Integrations with Microsoft Office

Open Dropbox documents through Office Online for live co-authoring, create and edit Office docs on mobile, and gain enhanced collaboration capabilities on the desktop

Comments and annotations

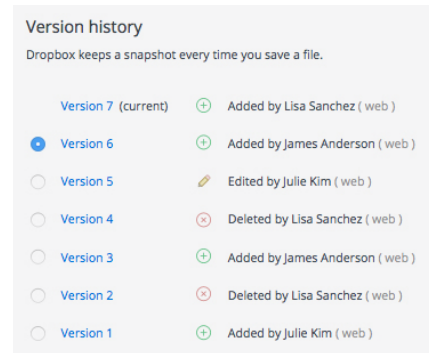

Comment on docs or on specific parts of any file, including PDFs, for more precise feedback and streamlined communication

Version history and deletion recovery

Preview and restore previous versions of files to easily revert changes

External collaboration

Work with external partners using a familiar and friendly tool, with features to securely share and track important information

“With its ease of deployment and quick adoption across the enterprise, Dropbox is proving to be just the collaboration enabler that our business units have needed for some time.”

Mike Lacey

VP/CIO, Meredith Corp

End-to-end management and control

With all employees using the same preferred solution, IT can finally keep data in one centralized place—the first step to real management and control of data. Dropbox Business then adds comprehensive audit logs, centralized user and device management, granular access controls, and a robust API to provide comprehensive visibility and control across the enterprise.

Security

Compliance

SOC 1, 2, and 3, ISO 27001, ISO 27018, and HIPAA/HITECH support

Encryption

Dropbox stores each file in discrete, encrypted blocks. Files are encrypted in transit and at rest.

Durability

Annual data durability of at least 99.999999999%

“We invest in technology products that simplify our employees’ work and don’t get in the way of their productivity, while also offering best in class security.”

Chris Burgess
Vice, President of IT, Expedia

Control

Visibility

Use extensive audit logs to track user activity, file events, sharing, and devices

Sharing controls

Set restrictions on access and collaboration inside or outside the team

Domain management

Speed up deployments by bringing Dropbox usage on your domain into your business account

Team management

Groups

Manage file access and permissions at the team or project level

Identity management

Integrate Dropbox with SSO and Active Directory implementations

Team folders

Manage content and access across the company using granular permissions

Remote wipe

Protect company data when devices are lost or during employee offboarding

Dropbox Business API

Leverage integrations with leading solutions providers for DLP, DRM, SIEM, identity management, data migration, and more

Account transfer

Transfer files from one employee to another to maintain business continuity during offboarding

Assume user

Gain visibility into specific users’ Dropbox accounts

Value for IT and business units

When customers deploy Dropbox Business, they see impressive levels of adoption compared to other services. What does this mean? To start, they gain major security advantages when employees actively use tools that provide IT with proper visibility and control. They also see significant return on investment by eliminating legacy costs and enabling greater productivity and collaboration across business functions.

Cost reduction

- Reduced shelfware costs, training, and support tickets
- Reduced dependency on legacy systems and hardware maintenance
- Increased flexibility and scalability of best-in-class collaboration platform

Business transformation

- Streamlined workflows and faster time-to-market with improved collaboration
- Increase in employee productivity and satisfaction
- Closer collaboration with external partners, contractors, suppliers, and customers

“We’ve seen a massive decrease in requests dealing with email quota sizes or files that need to be shared. They’ve dropped 80 to 90%.”
